INSTRUCTIONS TO CONTRIBUTORS

Manuscripts: The manuscript must be sent in MS Word Document file format. The manuscript should contain title of the paper, name and address of the author(s) and authors' affiliation. Abstract should be within 200 words along with maximum of 5 key words indicating only the objectives and precise results or conclusion of the study. The text of the full paper should preferably be within 5000 words. A full paper should have the following sub-titles:

- **Introduction:** Introduction should be concise and precise relevant to objectives of study.
- **Materials and Methods:** Standard and published methods should not be described rather only be cited as references. Any modification or new set up should be stated.
- **Results and Discussion:** Results should be presented with appropriate figures, tables and graphs. If result is given in the body of the text, table is not necessary and *vice-versa*. If table is given no graph is needed and *vice-versa* followed by critical discussion.
- **Tables, Graphs and Figures:** The paper should contain maximum of 12 tables, graphs and figures all together. Figures, graphs and photographs should be given as attached file along with appropriate marking numbers in standard BMP format (uncompressed).
- **Acknowledgements, if any:**
- **References:** The following format may be followed.
