INSTRUCTION TO AUTHORS

Editorial policy: The University Journal of Zoology, Rajshahi University is published annually under the auspices of the Rajshahi University Zoological Society. The Journal is devoted to the publications of the original research, covering the whole field of general, experimental, systematic and applied Zoology. Papers will not be published if they are based on work involving cruelty to animals or if the work may have put endangered populations or species at risk. All contributions are published in English only. Manuscripts are reviewed by two peers. The author(s) should submit an original research article that has not been offered to any other journals for prior or simultaneous publication.

Manuscript: Manuscripts should be double spaced, printed in font size 12, preferably Times New Roman, on one side of quality paper using 2.5 cm margin on all sides. Manuscripts and illustrations should be submitted in duplicate and the authors should retain a copy of their articles. The sequence should be: Title, Author's name and affiliation, Abstract, Key words, Introduction, Materials and Methods, Results and Discussion, Acknowledgements and References. Scientific notes should not follow this pattern but references should be listed as usual.

Title page: Title page should include the title of the paper, the name and address of the author(s) and suggested running head (50 characters or less). If authors are not from a single affiliation, superscript numerals are to be used to designate each affiliation. The affiliations are to be typed below the author line designated with appropriate superscripts in order of appearance. The title page should include complete name, address, telephone and fax numbers and email address of the author to whom galley proof and other correspondence should be sent.

First page: This page should carry the title of the paper, abstract and key words not exceeding six, immediately below the abstract.

Illustrations: Illustrations may be line drawings, graphs or photographs and all should be numbered in a single sequence and reference to the text as Fig. 1, 2 etc. Each figure must be in a separate page and clearly identified with the author(s) name and short title of the manuscript and figure number. Original figures or good quality glossy photographic prints are acceptable. Photographs must have sharp contrast. All illustrations must be complete and final, and should be selected to fit neatly into one column (83 mm) or two columns (172mm). For microscopical preparations, scale bars with appropriate units (e.g. μm) must be provided.

Tables: Tables must be presented to fit the page size 172 × 230 mm without undue reduction. Over-sized tables will not be accepted. Tables should be referred to as Table 1, 2 etc. and be provided in separate pages and may be typed on more than one sheet of papers printed horizontally.

References: In the text references to articles should be limited to the author and year style, and must be arranged chronologically. Examples: (Nakaggawa, 1970, 1973; Arthur & Lom, 1984; Robinson *et al.*, 1986; Don-Pedro, 1989a,b). The references should be listed at the end of the paper first in the alphabetical order under author(s) name and then in chronological order if several papers are cited by the same author(s). To distinguish between papers published by the same author(s) in the same year, letters a, b, c etc. are to be used after the year. The following style is to be adopted:

Bowers, W.S. 1992. Insecticidal compound from plants. In: *Phytochemical Resources for Medicine and Agriculture* (eds. Nigg, H.N. & Seigler, D.), pp. 227-235, Plenum Press, New York.

Don-Pedro, K.N. 1989a. Insecticidal activity of some vegetable oils against *Dermestes maculatus* Degeer (Coleoptera: Dermestidae) on dried fish. *J. stored Prod. Res.* **25**: 81-86.

Don-Pedro, K.N. 1989b. Effects of fixed vegetable oils on oviposition & adult mortality of *Callosobruchus maculatus* (F.) on cowpea. *Int. Pest Contr.* **31**: 134-137.

Doskotch, R.W., Odell, T.M. & Godwin, P.A. 1977. Feeding response of gipsy moth larvae, *Lymantria dispar*, to extracts of plant leaves. *Environ. Ent.* **6**: 563-566.

Swain, T. 1977. The effect of plant secondary products on insect plant co-evolution. In: *Proc. XV Int. Cong. Entomol.* (eds. Packer, J. & White D.), pp. 249-256. Washington D.C., 19-17 August, 1976. Entomological Society of America, College Park, USA.

Zar, J.H. 1974. *Biostatistical Analysis*. 4th edn. Prentice Hall International Inc., USA. 663 pp.

Copyright: Submission of paper implies transfer of copyright from the authors to the Rajshahi University Zoological Society. The copyright of papers published in the University Journal of Zoology, Rajshahi University will rest with the Society.

Printing charge: To partly cover the review and printing cost Tk. 600.00 should be sent along with the manuscript. Tk. 800.00 and Tk. 600.00 will be charged from the author(s) for each full paper and scientific note respectively, if accepted the publication. Additional pages will be charged from the 5th page onwards at the rate of Tk. 100.00 per page. Fifteen reprints will be supplied free of charge. Additional reprints can be ordered at cost price when returning the page proof. However, no page charge will be taken in the case of invited papers.

Soft copy: A soft copy of the final version of the revised manuscript in CD-R is mandatory. All CD-R should carry the label showing author, title and file name. **Contact:** All editorial correspondence should be addressed to: **The Executive Editor, University Journal of Zoology, Rajshahi University, C/o.
